AT THE C. W. POLVOGT CO.'S

Semi-Annual Opening of Millinery and Dry Goods at Wilmington's Popular Front Street Emporium.

Hundreds of ladies yesterday visited the fashionable dry goods emporium of the C. W. Polvogt Company on Front street and were charmed with the exquisite display of Fall and Winter millinery and other goods. The occasion was the semi-annual opening at that popular store and all records were broken both in neatness of display and in point of attendance. The opening will continue to-day and the enterprising management of the store, the salesmen and the saleslaies most cordially invite their friends and the public to visit the store.

The millinery department in charge of Miss Cressler was never more replete with fashion's latest fancies and all that is new in the art fastidious. The decorations, too, are exquisite and to look upon the wealth of beauty, if for no other purpose, is well worth the time it takes to go over the conveniently arranged apartment.

Not only is the gala attire in evidence in the millinery parlors, but all over the store it is as neat as a new pin. Mr. G. Henry Haar and Messrs. R. C. Platt and A. L. Price have wrought wonders in the decorative art and upon every hand are exhibitions of their cleverness. "The Race for Public Patronage," designed by Mr. Haar, is novel and pleasing to the eye.

To enumerate all the creditable displays is forbidden by space. The finest lines of cloaks, suits and furs are to be seen and in the centre of the store is a linen counter artistically arranged. Laces are also shown in abundance and the dress goods department never had more attractive fabrics.

A cordial invitation is extended the ladies to visit the store to-day.

A Night With Justice Bornemann.

Although 'Squire Bornemann has his headquarters in the extreme northeastern section of the city, he had a distress call last night about 10:30 o'clock from the uttermost confines of Dross Neck, in the far southwestern section of the city. Ernest Bland, colored, sought out the "Dry Pond" justice and told him that Almore Hill, a South Carolina negro, had invaded a house in which he was sleeping and made him jump through a window for fear of his life. A woman in the same house was attacked and beaten with an axe. Justice Bornemann made haste to Constable Sheehan's house and informed him of Bland's narrow escape from being the victim of a tragedy. Mr. Sheehan was sick and couldn't respond to the call, so Justice Bornemann sallied forth, came up with Policeman H. P. Merritt in the vicity of the scene of the scared negro and a meat axe and together the two soon had the bad negro in the clutches of the law. He confessed all and went to jail for preliminary trial before Justice Bornemann at noon to-day.

LOCAL DOTS.

— The W. C. T. U. will meet this afternoon at 5 o'clock in the Y. M. C. A. building. A full attendance is desired.

— Announcement is made of the marriage of Miss Martha Elizabeth Holley, of this city, to Mr. Joe N. Brittain, also of Wilmington.

— Dr. Blackwell has received and accepted an invitation to re-deliver his address on "The Young Man Himself" before an interdenominational mass meeting of young men of Charleston, S. C., December 14th.

— The Fire Commisson, composed of Mayor Waddell, Chief of Police Furlong and Chief Schnibben, of the Fire Department, yesterday visited the plant of the Standard Oil Co. in reference to the storage of gasolene and other combustibles. A conference will later be held as to what action, if any, is necessary to restrict the storage of these products.

HON F. M. SIMMONS TO SPEAK.

Will Address Voters of New Hanover in Court House Next Monday Night.

Hon. Furnifold M. Simmons, North Carolina's only Democratic Senator, last night telegraphed Chairman Geo. L. Peschau, of the County Democratic Executive Committee, that he would arrive at Wilmington next Monday, and speak in the Court House at night. He speaks at Snow Hill, Greene county on the Saturday preceding.

Chased By Mounted Officer.

Rufus Peice, a colored stevedore, was bound over to the Superior Court by the Mayor yesterday, charged with making an assault with a deadly weapon upon Wm. Hall, a negro drayman, at whom he became incensed because the drayman allowed his horse to almost run over some colored women. Peice rolled a three-pound iron ball in a handkerchief and used it as a slung shot on Hall. Policeman T. G. Evans gave chase to the negro on a bicycle, which he pressed into service, and caught him at Second and Orange streets.

The Penny Damage Suit in the Superior Court is Being Bitterly Fought.

MOTION MADE TO NON-SUIT.

Motion Not Sustained by Judge Bryan, and Defendant Will Introduce Evidence This Morning--Witnesses for Defendant Heard.

It will require all of to-day's and perhaps part of to-morrow's session of the Superior Court to complete the trial of the Penny damage suit against the Atlantic Coast Line, which was entered upon yesterday. At the close of yesterday's proceedings the plaintiff had introduced only three witnesses and rested and argument was had before Judge Bryan upon a motion by defendant to quash, which was overruled. Evidence in behalf of the railroad will be introduced this morning and this will probably be followed by further testimony for the plaintiff in rebuttal.

Both sides exhausted their number of peremptory challenges and made many for cause before the jury to try the issues in the case was finally selected yesterday morning. This required until about noon and resulted in the following having been empanelled: I. W. Solomon, John Dyer, W. H. M. Koch, E. H. Sneed, Charles D. Foard, Ike K. Pinner, W. E. Koonce, Richard J. Jones, F. A. Montgomery, Geo. Harriss, Walter G. MacRae and C. D. Gilbert.

The following issues were agreed upon and submitted:

1. Was the plaintiff injured by the negligence of the defendant?
2. Did the plaintiff by his own negligence contribute to his injury?
3. What damage, if any, has the plaintiff sustained?

Mr. B. F. Penny, the plaintiff who sues for $20,000, was the first witness introduced. He related that on Sept. 16th, 1898, he took passage on one of defendant's trains for his farm at Leland, Brunswick county, the first station beyond Navassa; that an altercation with an unruly negro and the conductor, the late Capt. Sam Carmon, took place in the second-class coach in which he was riding and that while leaving the car at his destination the negro, who was ejected from the train, fired at the conductor, but by mistake the ball hit the plaintiff; that the wound was in his groin and in consequence thereof he suffered much bodily harm and is still suffering at times; that the ball until this day has never been extracted, though diligent search has been made for it by physicians and he yet fears fatal consequences.

The next witness was Mr. Cyrus VanAmringe, baggage master on the train, who testified that the negro, Sam Callaway, who has since been sent to the penitentiary, boarded the train at Wilmington, and was drunk and inclined to be rowdy under the Front street station shed; that at Navassa the late Capt. J. W. LaMotte, who has since died, and also Capt. Sam Carmon, had trouble with the negro; that he saw Mr. Penny shot at Leland, and witnessed the ejection of the negro prior thereto.

Mr. Carl Stern, a passenger on the same train, also testified to the shooting, and Mr. H. C. Lumsden, a relative of Mr. Penny, testified as to plaintiff's great bodily suffering.

At this juncture the plaintiff rested his case, and counsel for the railroad made a motion to non-suit upon the ground that the evidence was insufficient. The motion was made under the Hinsdale Act, but was not sustained by Judge Bryan. The jury was sent out of the room while the questions of law involved in the motion were argued by Messrs. Rountree & Carr, Bellamy & Peschau and Davis & Davis for the Coast Line, and Messrs. Bellamy & Bellamy, E. K. Bryan, Herbert McClammy, A. J. Marshall and Eugene S. Martin for Mr. Penny.

At 5:30 o'clock after ruling upon the motion Judge Bryan ordered the jury to resume its place in the box and asked defendant's counsel if they desired to begin with their witnesses. Mr. Davis said they would wait until morning and accordingly a recess was taken until 10 A. M. to-day.

The evidence in the case is being taken by Miss Shrier as official court stenographer.

The following talesmen were ordered summoned for service to-day: J. C. Springer, Hanson Blanton, H. M. Emerson, W. W. Blair, A. E. Carter, B. F. Hall, R. O. Grant, Jno. W. Murray, William Blanks, C. T. Grant, H. Lacy Hunt, J. F. Garrell, W. A. Sanders, Jas. H. Curtis, C. C. Covington, Bartley D. Baldwin.

Another Brunswick Convention.

Mr. W. H. Phillips, Democratic nominee for the Legislature from Brunswick county, arrived in the city last evening. He says there is still another convention called to meet in his county. The "Conservative Democrats" have issued circulars calling a convention of all voters of their persuasion to meet at Lockwood's Folly to-morrow. A full county and legislative ticket will be nominated. The Republicans so far have held no convention, but they largely participated in the distribution of the offices by the "Citizens' Mass Convention" at Lockwood's Folly a short time ago. They were doubtless satisfied with the result of that meeting, but may later call the fourth convention in Brunswick this year.

THE GORDON-SHAY OPERA CO.

Attraction at the Academy To-night That Will Likely Draw Fashion and Beauty of the City—Paul Gilmore.

Miss Rosa Cecilia Shay's "Carmen" will be witnessed at the Academy of Music here to-night with the most intense interest. The enthusiasm over the young artist in Richmond and Norfolk was unprecedented since the days of Emma Abbott. The great beauty, of the singer of course, lends greatly to her performance.

The opera will be presented with an attention to every minute detail seen in metropolitan productions. The costumes, which are all new, were made after original drawings and the handsomest that were used by a road company. The scenery which includes several magnificent settings, will be brought here on a special car from Raleigh. From a scenic standpoint the production promises to be a revelation.

Miss Shay, it will be remembered by all those who have heard the talented young artist, is a daughter of Judge Shay, the famous criminal lawyer of Cincinnati. The beautiful young singer is, of course, the very apple of his eye, and he and Mr. Gordon have surrounded her with a wealth of scenery and an array of brilliant costuming not usual, even in these days of lavish stage expenditures. Some idea of this wealth of environmeut may be gathered from the simple statement that the production of "Faust" alone cost more than $35,000.

The performance in Richmond attracted a most fashionable audience, including Governor Montague and many others.

The Richmond *Dispatch*, in discussing the performance of "Faust," makes the statement that Miss Shay's performance disarms criticism, and declares that there is no other operatic organization on the road that begins to be compared with this, which Manager J. Saunders Gordon has so successfully equipped this season.

Following the attraction to-night will come Mr. Paul Gilmore to-morrow night in "Tyranny of Tears." The box sheet opens this morning at the Academy's down-town office at Plummer's, No. 204 Princess street.

DAY'S NEWS ON THE WHARF.

Steamer Planter Arrived from Georgetown.

Chamber of Commerce Committee.

Cotton receipts yesterday, 3,303 bales; same day last year 4,404.

The steamer *Planter*, Capt. Bennett, arrived late yesterday with a cargo of cotton for Messrs. Alexander Sprunt & Son.

The Clyde steamer *Oneida* is a day late, and was expected to arrive here last night or early this morning. The steamer *Hawes* is here waiting on the *Oneida* for a cargo of New York freight for Fayetteville.

The Hall Tie and Lumber Co. made a record for handling crossties yesterday that will be hard to beat. They loaded into the schooner *John R. Teel* in ten hours five thousand and ten cypress ties. These ties average 30 feet each, which is equivalent to 180,000 feet of lumber, board measure, for the day's work.

The Executive Committee of the Chamber of Commerce met yesterday, President Chadbourn, Secretary Kyle and Messrs. H. W. Malloy, I. M. Bear, G. J. Boney and L. B. Rogers having been in attendance. A vote of thanks was extended to the committee, which provided the handsome new quarters for the Chamber, and the Secretary was instructed to subscribe for a leading financial paper in the West and one in New York. These are to supplement the list of papers already received by the Chamber. It was stated that members of the body were privileged to transact business with any person, whether members of the Chamber or not, in the writing apartment to the left of the entrance to the rooms.

To Take Railway Testimony.

A copy of the order in the suit of the Inter-State Commerce Commission against the twenty-odd railroads to enforce the ruling in the Wilmington Tariff Association's suit was received by Clerk W. H. Shaw, of the U. S. Circuit Court yesterday. It is ordered by the court that the complainant and defendant be allowed 60 days in which to take proof in chief and 30 days thereafter in which to take proof in rebuttal. Further that each party before taking proof shall give 15 days notice to the opposite party of the names of the witnesses to be examined, of the officer or special examiner selected to take the testimony and of the time and place of the taking of such testimony. It is further ordered that the parties to the cause may by stipulation in writing agree upon a special examiner or examiners to take the testimony.

The Superintendent's Hours.

For the information of the public the STAR is requested to state that the office hours of Superintendent John Jay Blair are as follows at the various public school buildings in the city: Monday at the High School from 2 to 5 P. M. Wednesday at the High School from 9 to 11 A. M. Thursday at Hemenway from 9 to 10:30 A. M. Friday at the Union School from 9 to 10:30 A. M. Saturday at the High School from 9 to 12 A. M. The superintendent's regular office, of course, is at the High School, but the above schedule will be found convenient to all who desire to see him at any of the buildings.

OPENING AT REHDER'S

Magnificent Display of Millinery and Dry Goods at Popular Department Store.

THRONGED WITH LADIES.

Annual Event Was the Most Talked-of Affair in Wilmington Among the Ladies Yesterday—Concert by Hollowbush's Orchestra.

The semi-annual display of millinery and dress goods at the popular department store of Messrs. J. H. Rehder & Co., 615-619 North Fourth street, began yesterday morning at 10 o'clock and will continue in all its splendor until 7 o'clock this evening. It is saying a great deal to lay down the proposition that this season's opening is fully up to the standard of similar events in former years, but, if anything, the present effort has exceeded all others in point of styles shown and elaborateness of display.

The ladies flocked to the store yesterday in hundreds and last night the throngs were simply immense. It reminded one of holiday times when lady shoppers turn out en masse. Their going was not in vain, either, for the popular management of the store had lots to entertain them and a wealth of beauty for them to look upon.

The decorations this year are exceedingly pretty. The color scheme is white and lilac and it is carried out admirably all over the store. The design for the millinery department is by Mr. Carl B. Rehder and that for the remainder of the building by Mr. Clayton Moore. In the millinery department, aside from the variety of lovely creations in the millinery art, are two pretty booths, superbly decorated and filled with palms and other flowers from the yards of Mrs. H. Rehder, the florist. A number of striking novelties in straw bows and straw ribbons also add to the effectiveness of the decorations. These came from the National Florists' Association, which met in Asheville in August, and were furnished by Mrs. Rehder.

But to come to the display of millinery itself, one is overwhelmed with the beauty of it all. Miss Sarah Gardner, the accomplished milliner, has a greater variety and a greater wealth of styles than ever before. She had a delightful visit to the fashion centres North in the early Autumn and has shown discriminating taste and rare good judgment in the selection of a stock. A few of the many styles are the "Chinese Honeymoon," "Ping Pong Sailors," "Shepherdess," "Sarah Bernhardt" and the "New Square." The latter is an exquisite square creation, with military pom poms. The flat effects and Roman shapes are very much in evidence and are proving quite popular. There was nothing but praise and admiration for the new styles yesterday by the hundreds of ladies who came and went, many of them having been from out of the city. There are also many ready-to-wear hats. The effects this season are generally flat and trimmed in birds' wings, tips and plumes. Rehder has everything in the latest novelties and the most fastidious can be pleased.

The ceiling of the millinery department is handsomely covered and entwined about with autumn leaves. The windows also present an attractive appearance.

In the dress goods, silks and velvet department the display is none the less marked. Mr. Claude Moss is the clever salesman in charge. The columns in the centre of this spacious apartment are handsomely decorated with crepe paper in handsome designs.

On the second floor of the building there is also a pleasing and elaborate display of carpets, rugs and mattings in charge of Mr. Thos. Farrow.

The domestics are under the special care of Mr. Robert Bowden, and the clothing department is in charge of Mr. E. Clayton Moore. In the latter department is carried a nice line of Vital Brand ready-to-wear suits that are said to equal custom made goods. The manager takes commendable pride in the department and numbers his friends and customers by the score. The gents' furnishing and hat department is in charge of the clever Mr. Thos. B. Powers, and he has a most fetching display. Mr. Lynn Moore is in charge of the shoes, and he is making a neat display of the famous Crawfords for men and women.

Mr. Anson Alligood is in charge of all the retail department as head salesman and Mr. Carl Rehder, the junior member of the firm, has charge of the wholesale department. Mr. W. P. McGloughn travels all this section and is building up a splendid jobbing trade.

A notice of the opening would be incomplete without a reference to an exquisite display of roses, carnations and cut flowers, grown by Mrs. Rehder. The display was made at night by Mr. Will Rehder in the dry goods department and it attracted no end of admiration.

Likewise it would be unfair to omit one of the most pleasant features of the climax of the opening last evening—the delightful concert by Hollobush's splendid orchestra. During the evening the following programme was skilfully rendered:

Overture, "Record Breaker," by Leanord.
"Elly Gavotte," by Innes.
Sel, "The Stokes," by Chopin.
"Inter-mezzo-Pantello," by Loraine.
March.
"A Georgia Watermelon Party," by Chaup.
"Palms," cornet solo, by C. W. Hollowbush.
"Xylaphone," solo, by Fred Poufe.
Waltz, "Lozane," by Milton.
March, "Tale of Bumblebee."

CITY BOARD AUDIT & FINANCE.

Regular Meeting Last Night at Which Various Routine and Unimportant Matters Were Disposed Of.

The city Board of Audit and Finance met last night but transacted only routine and unimportant business. Chairman McQueen and Messrs. C. W. Yates and J. A. Orrell were present; also Aldermen Sweeney, Murrell, Tiencken and Von Glahn, who came to urge concurrence in several matters previously passed upon by their Board.

Bill of Mr. A. D. Wessell, amounting to $15.50 for underpinning his residence on Fifth street, made necessary by excavations by the city was disapproved. Action of the Aldermen in abating poll tax upon Ellis Boufarrab, listed erroneously, was concurred in. The action of the Aldermen in appropriating $37.50 for a clerk at Fourth street market until April 1st, was also approved.

A bid of Maj. W. F. Robertson for extending the water main from Sixth and Church to Sixth and Castle streets and for the establishment of a hydrant at the latter point, was accepted. The amount named is $387. Messrs. Sweeney and Von Glahn spoke in reference to the advisability of such a hydrant.

Coupons to the amount of $115, which had been paid, were burned by the Board.

In regard to the removal of the hydrant from between the tracks of the Carolina Central railroad on its yards in the city to Nutt and Brunswick streets, the committee was instructed to advertise for bids and award the contract in due form and the bill for same would be approved.

Sundry bills for current expenses were approved, after which the Board adjourned.

WILMINGTON PRESBYTERY MEETING.

Strong Fight Expected on Proposition to Move James Sprunt Institute.

Wilmington Presbytery will convene at Mount Williams' Church, near Bannerman's Bridge, in Pender county, to day, and many pastors and laymen will leave to participate in the proceedings.

Rev. A. McFadyen, of Clarkton, arrived yesterday and Rev. J. C. Story is expected up from Southport to-day. Dr. J. M. Wells and Mr. B. G. Worth, of the First Church; Dr. A. D. McClure, of St. Andrew's, and Rev. C. W. Traywick, of Immanuel Church, with probably others, will represent the Wilmington congregations and all will leave this morning.

The most important action of the Presbytery will be upon the proposition to move the James Sprunt Institute from Kenansville to Wallace. There is a strong sentiment on each side and a hard fight over the question is expected.

A NATIONAL PROBLEM.

The coal strike in Pennsylvania has ceased to be a State or a sectional problem, for it has become a national one and one that in its importance, at least to that portion of the country dependent upon the Pennsylvania mines for fuel, transcends all the the other issues of the day now engaging the attention of the people.

In the Western States where the supplies of soft coal are abundant it is not felt to the same extent as it is in the Middle and Eastern States, nor is it in the South, where we also have an abundance of soft coal, but still it is felt to some extent there as well as here, for there is not only an advance in the price of coal caused by the large demand for soft coal, and the tax on the railroads to deliver it, but there is or will be an advance in the price of things manufactured in consequence of the enhanced price of coal to the plants which do the manufacturing. But as there are some 20,000,000 of people and the manfacturing industries which they operate depending upon the mines of Pennsylvania, the question is sufficiently important to become a national one whether other sections be directly interested or not.

It has resolved itself into this: Can ten or a thousand men who have secured control of a number of coal mines shut those mines up and imperiously refuse to open them because their operators make certain demands with which they refuse to comply? The demands may be reasonable or unreasonable. That does not affect the question as far as the public is concerned. The people want and need coal, and must have it. It is one of the necessaries which no man or body of men have a right to deprive them of, although they may claim to hold the mines by dispensation of Providence and to hold and to control them by Divine right. The public might bear patiently the cutting off of these supplies if they had an abundant supply of other kinds of fuel which whould do for substitutes, although not quite so good, but when there are no substitutes that is another matter, and one that convinces the public that some steps must be taken to force these mine owners to open their mines whether they come to satisfactory terms with their miners or not. The interests of the mine owners and the men they employ do not measure with the interests of the public in this matter, nor are their property or other rights more sacred or more entitled to protection than the right of the people to have coal. With one it is a matter of profits on capital invested, with the other it is a matter of wages and fair treatment, but with the public it is a matter of industrial life or paralysis, and bodily suffering, of health, of life and death.

The mine owners assert that with them it is a question of principle, that they protest against being dictated to and controlled by the men they employ under the leadership of a man from another State, whom they obdurately refuse to recognize or treat with. But this is not true, for there have been labor troubles in those mines before this one, and the operators of the mines did treat with the miners and did compromise the disagreements with them, which is all they were asked to do in this case.

But then the Trust was not as strong nor as arrogant as it is now. In this strike they started out with the determination to make no concessions to the miners' union, under the belief that they could starve the strikers into submission, which they probably could have done if the strikers had done not received financial aid from other workmen in other sections and callings. That has enabled them to prolong the strike into the sixth month, practically cut off the supply of anthracite coal, leave the Atlantic cities almost entirely destitute of it, and run the price up to unprecedented figures, almost Klondike. When coal goes up to $20 a ton by the ton, and to 85 cents a bushel for poor people who must buy it by the bushel or in less quantity, of course this means suffering, the extent of which cannot be estimated.

Mr. Baer, the man who claims that the mine owners hold the mines by Divine right, says there is no cause for alarm, that there will be plenty of coal on the market by the time it is needed. It is needed now. There is not in the city of New York enongh to supply the city for one day if a cold snap came. In one city in the State of New York the people are pulling up and burning the wooden sidewalks. A gas company in New York city a couple days ago bought 100 tons of anthracite and paid $21 a tons for it, and in the city of Chicago it is selling for $25 a ton. The few dealers in New York and other Northern cities who have any are selling it in small quantities, tons, half tons, &c., refusing to let any one person have more. One association has made contracts for 50,000 tons of Welsh coal (on which it pays a tariff of 67 cents per ton) to meet present emergencies.

The country consumes annually 50,000,000 tons of anthracite, with practically none within reach or in sight, with a cold wave liable to swoop down from the North at any time, and yet this arrogant, self-satisfied coal baron who with associates controls the coal and coal carrying roads has the cheek to tell the public that there is no cause for alarm, that there will be plenty of coal on the market by the time it is needed. If they turned every idle man into the mines and put him to work to-morrow, they could not get out coal as fast as it will be needed and in sufficient quantities to keep the price down to a reasonable figure, such as the masses of the people could pay without extraordinary hardship.

Of course this is all wrong, monstrously wrong, and is a condition which should not be tolerated for twenty-four hours after those mine owners had received official notice to open their mines and get to mining and shipping coal. And that is precisely the kind of notice the State of Pennsylvania should serve on them forthwith, law or no law, as a case of self preservation which stands above the law protecting property and if they refuse then let the State in the name of the people, take possession of their mines, put the miners to work getting out coal and the railroads to work delivering it, and if they refuse to deliver it take possession of them.

That is a kind of government control that would be effective, would relieve the stringency, save the people, and bring the coal barons to their senses without being liable to the objections against government ownership, now advocated by some, the end of which no one can foresee if once begun.

The question is now up to the sovereign State of Pennsylvania which can and should solve this most serious and vital problem, and solve it in a way that it will never need any more solving.

AND WHERE WILL PRITCHARD BE?

Following up the action of the meeting of negroes in Greensboro, and the action of the subsequent meeting of negroes in Salisbury, a number of leading negroes of the State have issued an address to the people of their race in which they pay their respects in no doubtful phrase to Senator Pritchard for the part he took in closing the doors of his convention against them, not on account of illiteracy, or other incompetency, but simply on account of their color, classing the best with the worst.

In view of the fact that the negroes of this State have been for years fondled, and used by the Republican party, that they have been the staff of that party, and stood by it in all its ups and downs loyally ever since their enfranchisement, and in view of the further fact that whatever of political preferment Senator Pritchard has enjoyed and whatever of eminence he has attained he owes to the support and votes of the negroes, they appropriately characterize his treatment of them as gross "ingratitude," repaying with rebuff and insult loyal attachment and faithful service.

Of course it goes without saying that no negro, literate or illiterate, who has a scintilla of self-respect or respect for his race, could support Pritchard for anything, nor the party that he leads and controls, for that would be supporting him, and therefore the only thing they can do is to drop him and his party and let them scuffle along, with their new coat of whitewash, without the aid of the negroes upon whom they have heretofore relied. And then where will Pritchard be when it comes to counting votes for his successor in the Senate? He will be beaten out of his brogans and then the laugh will be on the side of the bounced colored brothers in whose faces the doors of Pritchard's convention were shut.

A CONTRAST

Of the face of a healthful woman with the face of one who is sick proves that quite often a sad face is a sick face. Many a woman has credit for a sunny disposition who would soon be sad of face and irritable of temper if she had to endure the womanly ills which many of her sex have borne for years.

Dr. Pierce's Favorite Prescription cures the diseases which are the source of so much pain and suffering to women. It establishes regularity, dries debilitating drains, heals inflammation and ulceration and cures female weakness.

Mrs. Cornelia Henson, of Coalton, Boyd Co., Ky., writes: "In October 1889 I gave birth to a baby and the treatment I received at the hands of the midwife left me with falling of the uterus. I had no health to speak of for three years. I had another baby which was the third child. My health began to fail and I found myself completely worn out. I had so many pains and aches my life was a burden to me and also to all the family, for I was nervous and cross and I could not sleep. Had four doctors come to see me but at last found I was slowly dying. The doctors said I had liver, lung and uterine trouble. I was in bed for months and when I did get up I was a sight to behold. I looked like a corpse walking about. I commenced to take Doctor Pierce's Favorite Prescription, 'Golden Medical Discovery' and 'Pellets,' and ever since then I have been a well woman. I have suffered all a woman could suffer at my monthly period until since I began the use of Dr. Pierce's medicines, but now I can say I have no pain. The dark circles around my eyes are going away and I feel better in every way. My cheeks are red and my skin is white, but before it was as yellow as saffron."

Accept no substitute for "Favorite Prescription" there is nothing just as good for weak and sick women.

Dr. Pierce's Pleasant Pellets are easy and pleasant to take. A most effective laxative.

STANDING BY THE TRUST.

"Give us protection," "give us troops," said the coal barons in their conference with President Roosevelt, and we will operate the mines. They have succeeded in inducing the Governor of Pennsylvania to order out the entire State Guard, which numbers about 11,000 men, to protect the mines and the men who want to work.

Ever since the riot at Shenandoah several months ago there have been soldiers on duty in the mining region, and now in the sixth month it is apparently found necessary to call out the entire guard, although there is now no more lawlessness and no more intimidation of men who want to work than there was three months ago; but the situation is different, for now there is an actual coal famine while then there was only a prospective one.

This, we presume, is the Governor's reason for calling out the entire State guard to give the mine owners the protection asked for and to enable them to mine the coal for which the need has become so imperative. The Governor is within the law, and he doubtless feels that he is doing his duty, and the best in the emergency for the people who are dependent upon those mines for fuel, and this is no doubt what the mine operators were counting upon when they so obstinately refused to recognize the Miners' Union, or to arbitrate with the strikers bluntly refused to heed the earnest appeal of the President, and answered it with a demand for military protection and support. They knew this would come at last, although a coal famine might come in the meantime, and hence they were obdurate, haughty and unyielding.

They have succeeded in putting the military power of the State of Pennsylvania between them and the strikers, and may, if necessary, succeed in putting the military power of the Federal Government there, but they have not succeeded in putting public sentiment there, for that is and will be dead against them. It was this or a coal famine with all the terrible consequences that this implies, and this, and this only reconciles the public to this response to the demands of the coal barons for more troops.

But it is the same old story. Whenever there is a conflict between organized labor and organized capital, organized capital always has the power and the pull to get the backing of troops when it wants them. Had these mine operators, representing the Coal Trust, shown anything like a reasonably conciliatory disposition in the beginning there would have been no strike, no loss of millions of dollars, nor coal famine, all of which would have been averted, but in their obstinacy they have succeeded in giving the American people a Trust object lesson that they will not soon forget.

There is a street car strike on in New Orleans, and some of the stockholders have applied to the courts for a receiver. There was a street car strike in Indianapolis, Ind., seven or eight years ago, some of the stockholders asked the court to appoint a receiver, the court granted the appeal, the receiver took charge, the cars were kept running and there hasn't been a street car strike in that city since.

CURRENT COMMENT.

— The coal barons may learn that insolence and arrogance when dealing with their mine slaves is one thing but quite another when dealing with the public.—*Atlanta Journal, Dem.*

— Property has its duties as well as its rights and the unyielding attitude of the coal mine owners at yesterday's conference indicates that they realize neither the duty they owe to the people in the present crisis nor the intensity of public feeling.—*New York Herald, Ind.*

— Former Gov. Taylor, who left Kentucky and suddenly became a resident of Indiana, offers to stump Ohio for the Republicans if Gov. Nash will guarantee him protection from the authorities across the river. The Ohio Republicans will hardly care to add the Taylor weight to their load.—*Washington Post, Ind.*

— By all means, let a commission of financiers settle the money question; let a commission of trust magnates settle the trust question, and let a commission of manufacturers settle the tariff question. This would be a settlement by experts, but, on the same principle, why not let the wolves settle the sheep question—don't they understand the flavor of mutton?—*The Commoner, Dem.*

— Mr. Hanna can stand pat. He can afford to buy 40-cent steak, wash it down with good coffee, and promote its digestion by taking goblets of choice wine with his dessert; but how about his employes, who rang from $1,25 to $2.50 a day and have families to support? In giving advice, Senator, you should give it to the right people. Stand pat is not safe counsel for you to deal out to a miscellaneous crowd of Ohio citizens, at this time!—*Chattanooga Times, Ind.*

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty, of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50 cents. Sold by R. R. BELLAMY, druggist.

SPIRITS TURPENTINE.

— Warrenton *Record*: Mr. T. A. Williams, of Inez, has a clock, about 160 years old, that belonged to his paternal grand-mother. He says that it keeps good time and that he would not take $500 for it.

— Kingston *Free Press*: Wilson sold 6,126,292 pounds of tobacco during the month of September, Kinston for the same period sold 5,917,226, a difference in Wilson's favor of only 209,063 pounds, which shows that Kinston is surely working her way to first place in the tobacco markets of North Carolina.

— Henderson *Gold Leaf*: Mr. I. M. Green, of Epsom, has a big hog which will do to brag on. He is a Poland-China crossed on the English Berkshire, and is two years old. Mr. Green tells us he thinks the hog will weigh 700 pounds now, and he is taking on flesh every day. He says it is the second largest hog he ever saw.

— Lexington *Dispatch*: The coal strike and the consequent scarcity of coal is affecting people wherever coal is used. In Lexington, for instance, hard coal is not to be had at any price. Dealers say they can't get it and if they could the price would doubtless be beyond reason. Soft coal is quite plentiful and the price is little if any in advance of former years.

— Tarboro *Southerner*: Saturday evening in South Rocky Mount a white man named Ben Jones had his head cut off by a passing train. It is presumed that he was under the influence of liquor and stumbled just as the train was about to pass, his head falling upon the rail. It was cut diagonally. Part of the head above one ear remained with the body.

— Goldsboro *Argus*: Mr. Robert Hancock, the wheel-horse Republican of Craven county, was in the city today, and gave out the information that Maj. Geo. W. Butler, of Clinton, a brother of the ex-U. S. Senator, and a lawyer, will be put in the field by the Republicans and Populists combined against Hon. C. R. Thomas for Congress in this district.

— Salisbury *Sun*: The Rockwell Furniture Company has made its first shipment of the factory's product. A number of coffins were shipped to Mr. G. W. Wright, of this city. The Rockwell Company will manufacture only coffins and caskets and already has a large demand for its goods from all sections.

— Greensboro *Record*: W. A. Scott, chief of police of Greensboro, returned on a belated train Sunday night from Pocahontas, Va., without Green McAdoo, for whom he had a requisition, for the reason that the suspect was not the right man. The moment Scott laid eyes on him he knew he was not McAdoo, though he fits the description in size, weight and general appearance, except he is lighter in color.

PROTECTION OF WORDS.

A Plea For a Rest For Our Familiar Quotations.

In these days when everybody is writing and everybody seems to succeed would it not be well to start a society for the protection of words and phrases? Many of these are so brutally overworked by the amateur. The winged words, the words that burn, the thoughts that breathe, the telling phrases, do they not clamor loudly for a rest? That very sentence affords an illuminating example of what I mean. How apt, how vivid, how expressive it would be if all its epithets had not lost their vitality through overwork! To the sated reader the whole sentence is but the echo of an echo. It not merely means nothing, but it is robbed even of its sound and fury.

The greenhorn that complained of "Hamlet" that it was too full of quotations unconsciously expressed a great fact through the medium of a bull. In a wrongheaded way he pointed out that constant reiteration has reduced the grandest passages in the language to mere commonplaces. Give our familiar quotations a rest. Lay to sleep our household words. Let fortune for awhile cease to favor the brave. Let us feign that the poet is made. Let a man who would steal another's thunder be arrested for felony. Let us win no more golden opinions. Let the favored few withdraw to some select seclusion and the countless thousands to some dry eyed privacy.

Thus may nouns, adjectives and phrases, after a long rest, reawaken with the freshness of the morning upon them, their original meanings recreated, energetic, effective, brilliant, as on the day when they were first conceived and brought forth.—Era.

Thought She Was a Calf.

When Mme. Schumann-Heink was thirteen, her father was transferred to Gratz, where a singing teacher, Marietta von Leclair, recognizing the young girl's talent, offered to give her singing lessons without compensation. For two years she studied nothing but solfeggios. Then she began learning songs. She had a very deep contralto without any high notes at that time. One day a caller, hearing her sing Schubert's "Der Tod und das Madchen" in an adjoining room, said to her teacher, "I did not know that you taught young calves."

"She is not a young calf," replied Marietta von Leclair, "Some day she will be a great singer."—Gustav Kobbe in Woman's Home Companion.

COTTON MARKETS

By Telegraph to the Morning Star.

NEW YORK, Sept. 7.—The cotton market opened steady with prices one point higher to two lower, this being a better start than due, considering that Liverpool cables depicted a weak situation in Liverpool, that the weather chart portrayed generally fair and mild conditions over the crop country, and that receipts were very heavy. Soon after the call room shorts bid the list up several points in fear of Wall street bulling. The former leaders, however, failed to support the market and as commission houses were well supplied with liquidation orders, the market turned heavy and during the balance of the session worked quite steadily downward. The South furnished a goodly number of Winter month selling orders. The late Liverpool cables were disappointing. The private crop reports were less unfavorable than noted in some time and the Southern spot cotton markets were described as easier, with more offering and demand limited to small amounts. At the close the market was steady, with prices net two to seven points lower. Total sales were estimated at 250,000 bales.

NEW YORK, Oct. 8. Cotton dull 8.85c; net receipts 718 bales; gross receipts 10,473 bales; stock 34,615 bales.

Spot cotton closed steady; middling uplands 8.85c; middling gulf 9.10c; sales — bales.

HINTS NATURE GIVES

SYMPTOMS THAT SHOULD WARN MEN OF COMING SICKNESS.

The Significance of Sneezing, Yawning and Recurring Winter Colds. The Meaning of Blue Hands—Apoplexy's Warning Signals.

Nature scarce ever strikes without warning. In so far as disease is concerned it gives clear signs of what is impending days, weeks, months and even years before the attack. If people looked for these signs and took warning from them, they would escape much serious illness and live many years longer than they do. It is indeed remarkable how careless we are in this respect. A man who will anxiously scan the sky for signs of coming rain lest his top hat may get spoiled will never dream of examining his eyes, nose or finger nails for signs of coming illness.

The sneeze, for instance, is very significant. It is always a sign that something is injuring the air passages anywhere from the nose down to the lungs. Should it be only a case of snuff or pepper, of course the sneeze is of no consequence. But often it is an indication of congestion. There is inflammation somewhere, with too much blood, and the object of the sneeze is to give relief by getting rid of some of the fluid. This sneeze is a warning that every prudent person should attend to. It is at least the forerunner of a cold. But it may indicate an approaching attack of bronchitis or pneumonia. When there is much sneezing, accompanied by something like a small shower of rain, the victim will do well to take a warm footbath, go to bed and adopt the other usual remedies to cure a cold.

The winter cold itself is a grave warning. When it recurs two or three times every winter, it is sure to be followed in the end by chronic bronchitis. Once this comes on it is practically incurable.

Men are started on their lives much as a shell from a cannon—with a certain fixed quantity of energy. If disease or accident does not carry them off, they will die some time of what we call old age—in other words, when the energy with which they started is spent. Some have energy enough to carry them over the full century; others have only sufficient to keep them going for ninety, eighty, seventy, sixty or fewer years. Now, early baldness is a sure sign, with some exceptions, that the energy is likely to fail sooner than in the average man. But all kinds of baldness have not this significance. Sometimes the loss of hair arises from scalp disease caused probably by microbes. The warning baldness is that kind which commences about the temples and on the crown of the head and gradually eats its way over the scalp until only a circular fringe of hair is left.

Blue nails, or blue hands, betoken weak or obstructed circulation. They are a warning against overexertion of any kind. The obstruction may occur from disorder of several organs in the body. But most commonly the blueness indicates that the heart is not up to the mark.

Yawning is a somewhat similar warning. It is a sign that the steam has run down and that it is time to go to bed or perhaps to go into the open air. When you sit in a close room, the lungs do not receive sufficient of the vital gas, oxygen. The yawn is then a desperate effort of the lungs to properly aerate the blood, and it warns you to open the windows or to leave the room. When you are out of bed too long or when you have done an unusually hard day's work, the waste products of your body are present in excessive quantity. Then the yawn is a warning to you to lie down and rest.

Most people have a great horror of getting a "stroke" or fit of apoplexy. It is not by any means as unpleasant as the toothache, but the suddenness of it is what appalls. There is really no suddenness about it, however. No disease gives such early warning. A "stroke" is a very simple occurrence and not at all horrible. It results from two or three causes, but the most common one is this: A little artery in the brain wears out and lets some blood escape, which clots, presses on the brain and paralyzes whatever part of the body is governed by the piece of brain pressed upon. Now this artery wears out only in common with other arteries of the body. In some people they all become what is called atheromatous, or hard and brittle. At the same time they become tortuous or twisted. We can see these hard and tortuous arteries on the temples, and then we know it is not safe to do anything which will congest the brain, lest the one little artery there, which is especially liable to give way, shall let the blood escape. Likewise warning is often given by the tiny arteries of the eye. They break and let out little traces of blood, which can easily be seen, but a cold or sleepless night may do the same. When these signs occur—and they occur months and years before the stroke—do not get excited or angry, no matter how great the provocation, do not rush to catch an omnibus or in any way overexert yourself, and do not dine too heartily. By taking the warnings given by nature you will insure yourself against this pleasantest way of leaving the world and be sure of dying of cholera or smallpox or some other respectable disease.—London Mail.

From Male to Female.

In a paper read before the New York breeders' convention by Valancey E. Fuller he said: "It is a law which seems to run through the animal as well as the human race that the female transmits her characteristics to the male and the male to the female. The cow is governed by this law and therefore does not transmit to a heifer calf those qualities which have made her so desirable as a producer of milk and butter, but to the bull calf, and the sire is governed by the law that the male transmits such qualities to his female offspring. While there may be exceptions to the law, yet it is the experience of breeders that they are usually disappointed in the heifer calves they raise from their best cows. The knowledge that great producing power is transmitted generally by the sire to the heifers should cause breeders to use only a sire from the best cow in a herd and not to expect the good cow to reproduce her good qualities in her heifer calves."

THE DAIRY COW.

Illustration Showing the Proper Development in Posterior Regions.

This illustration and accompanying description of the proper development of posterior regions of the dairy cow are taken from farmers' bulletin No. 143 issued by the United States department of agriculture: The figure shows the proper formation of the hind quarters and barrel of the dairy cow. She should be cat hammed and thin through the lower thigh. She should

PROPER DEVELOPMENT.

have a long quarter and for the greatest utility and service be wide at the pin bones and particularly so in the region of the loin and pelvis. The angles of the body should be evident and clearly defined, and there should be no sign of any surplus flesh, while the udder should be wide, deep, capacious and strongly attached high up on the posterior side.

Less Cheese In Canada.

At a meeting of the Montreal Dairy and Cheese association a resolution was adopted authorizing a circular to the dairymen of Canada strongly advising them to turn their attention to butter more generally and to discontinue the manufacture of cheese entire each year after Nov. 1. The reasons for this course are that fodder cheese on the market reduces consumption, and it is only grass goods that are of a quality sufficient to increase demand; that the consumption of cheese is diminishing, while that of superior creamery butter is increasing; that the price of butter is higher on an average all the year round than that of cheese; that the manufacture of butter is more profitable than cheese. These are all good reasons why the Canadian dairymen should make less cheese and more butter.

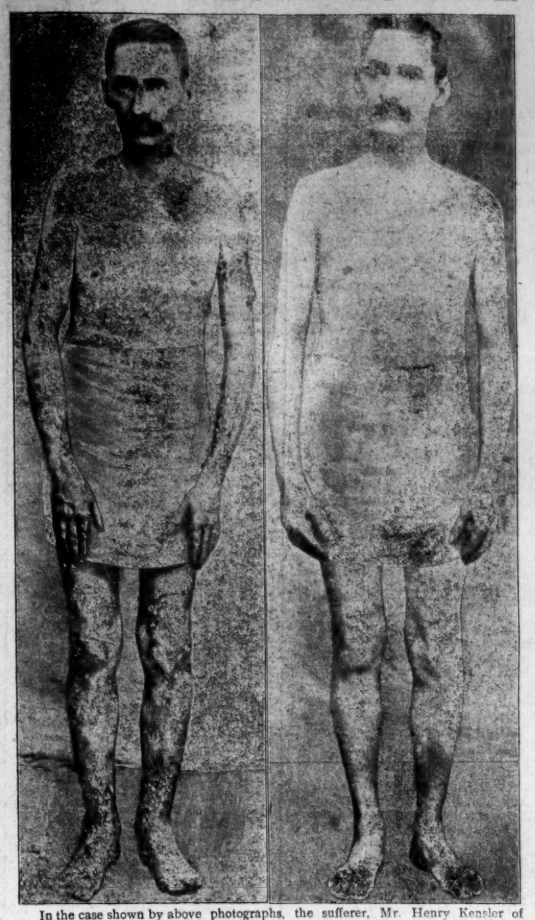
SAVED FROM SUICIDE



In the case shown by above photographs, the sufferer, Mr. Henry Kensler of Pittsfield, Ill., was in a desperate state from eczema which had continued for over ten years, becoming steadily worse and worse each year in spite of all doctoring possible. Life seemed hopeless and suicide was often thought of.

Seeing an account in a newspaper a short time ago of a remarkable case of eczema cured by D. D. D., Mr. Kensler tried it. He wrote in to the D. D. D. Company offering to be photographed and to permit publication of his photo if they would guarantee the remedy to cure him as completely as in the case he had read of. From the first use of it he states that all itching and distress disappeared. And in three week's time the skin healed over in every spot where affected. In a short time (it was a matter of only a very few days) the proper, white, natural, smooth state of skin was restored, and there has never since been any recurring sign of the disease anywhere on his body.

Started In Few Small Spots.

The persistent spreading and tenacity of this disease are seen in this case. First one and then another small spot showed. Nothing could drive them away. Slowly the limbs became covered and the neck and back. He fought hard to save the face, but that next was covered and told the story of his misery to the world. Then the hair became encrusted with it. Small beginnings were showing almost everywhere else on the body, hardly a square inch being free from it. In a few years more the man would undoubtedly been one wretched, writhing scab—had D. D. D. not conquered the disease. With his tortures already experienced and with this future staring him in the face, what wonder is it that suicide seemed inviting.

A wonderful particular of this case (as seen in all cases more or less) is that the worst big sores were the first to give way to the treatment, while the disease lurking under the skin held on longest. Twenty-one days, however, cleared out the whole affection—every germ of it.

I Vouch For Above.

The facts in this case of Mr. Henry Kensler of Pittsfield, Ill., have been laid before me in all details with proofs that are unmistakable. Every particular in the history of this remarkable cure more than bears out the above statement of the case. From the proofs submitted, I feel that this announcement comes far from doing full justice to the remarkable merit of a medicine which accomplishes results so important to humanity.

Since I have handled the preparation in this city, a great number of people have used it for various skin affections. Its results have been invariably satisfactory. I am therefore willing to guarantee any purchaser full return of his $1.00, if satisfactory results are not experienced from a trial of a bottle in any case of skin affection.

THE MANY HUNDREDS

OF LADIES THAT HAVE VISITED OUR FALL OPENING THIS WEEK COMPLIMENTED OUR DISPLAY OF

Pattern Hats and Fine Millinery Very Much.

The decorations of our store throughout were pronounced by many to be very fine—everything was harmonious.

Our dress goods department had on display the grandest line of dress goods that we have been able to show and even though the weather has been very warm our sales have been unusually good.

In our millinery department our sales even surprised us. Our milliners took orders for hundreds of pretty hats which we have been working hard to try and get them ready on time. Our stock of men and boys' clothing has had their full share of patronage and we are claiming to have the best stock of clothing in the city. We have hundreds of boys' suits that run in price from $1 to $4 that I know are new and nobby and strictly up-to-date; in men's suits, from $5 to $12.50, we defy competition; we claim to have the strongest line sold in North Carolina.

If you are thinking of buying a suit for yourself or for your boys and saving money is any object, it will pay you to give us a look.

Men's strictly all-wool cheviot suits, worth $7.50, can be found in our store for $5.

For $7.50 and $10 you can get the very best suit. Every thing in this line is strictly all new goods.

In ladies' cloaks and furs and shirt waists we have an elegant line and assortment in all styles; nice cloaks from $2.50 to $12.50; fur collarettes from 75c to $9 each; shirt waists, beautifully made, at 50c; nice silk waists at $2.98; ladies' ready-made skirts, we have them at all prices, $1 to $2.50; beautiful walking skirts $2.50 and up; ladies' underskirts, nicely made and full size, black, looks like silk, from 75c, $1 and $1.50; ladies' muslin underwear in all prices; corset covers at 10c, better at 15c, 20 and 25c; full size gown, with ruffle and embroidery, at 48c; better at 75c, $1 and $1.25; waist chemisettes, beautifully made and trimmed, at $1.25; white skirts 50c, 75c and $1; ladies' strapped bust corsets at 23c each; an elegant corset at 39c each; beautiful girdles at 50c each; fascinators, circular shawls, 23c to $2.50.

WILMINGTON, N. C.

WEDNESDAY MORNING OCTOBER 8.

SITUATION IN THE COAL STRIKE REGION.

Striking Miners Remain Firm—Sentiment Strongly Against Accepting President Roosevelt's Proposition.

By Telegraph to the Morning Star.

WILKESBARRE, PA., Oct. 7.—The two principal features of the anthracite coal strike which claimed public attention in the coal field to-day were: Will the miners yield to the desire of the President of the United States for them to return to work and investigate afterwards, and will the mine operators be able to carry out their promise to produce enough coal to relieve the situation if given the protection of the full military power of the State. After a most careful inquiry among the district officers (not including the district presidents who are in Buffalo), and the rank and file of mine workers, it was found that sentiment is strongly against accepting the President's proposition in its present form. As to the other feature of the situation, as it exists to-night, opinion is divided and will remain so until the real test comes.

It is noticeable that the strikers show a firmer stand than they did before Governor Stone acted last night. National Board Member John Fallon, who was the highest in authority at strike headquarters, to-day said the men will remain as they are—firm to the end.

The general comment that it is now up to the operators to mine coal now that they have the entire State militia protection which they have been asking for, is not shared by all officials of the companies. It is claimed the State has yet to show what it proposes to do.

Twenty-five hundred striking mine workers of the Prospect, Oakdale and Midvale, of the Lehigh Valley Coal Co., met in this city to-day and it was announced after the meeting that they had unanimously decided to remain on strike until they got some concessions.

The calling out of the entire military force of the State did not cause a sensation in the Wyoming Valley, Wilkesbarre city and the surrounding country were about as quiet to-day as any previous day since the suspension was inaugurated.

SPEAKING IN ROBESON.

Campaign Opened at Lumberton—Independents Not Gaining Any Ground.

[*Special Star Telegram.*]

LUMBERTON, N. C., Oct. 7.—The campaign opened here to-day, Hon. Cy. Watson making the opening speech. He was introduced by Capt. W. S. Norment and spoke one hour to a good sized audience. He discussed the tariff question, the State administration and the constitutional amendment, making an earnest appeal to all Democrats to register and vote.

The audience met again in the afternoon to hear the county candidates, the opening speech being made by Capt. Thos. McBryde, candidate for the Senate. He was followed by D. A. Prevatt, independent candidate for the Senate.

From the best information obtained, it seems the so-called independents are not gaining any ground. Registration in Lumberton township is progressing satisfactorily.

THE HICKS COMPANY CHARTERED

New Wilmington Enterprise--Governor Off to West—Craig-Pritchard Campaign.

[*Special Star Telegram.*]

RALEIGH, N. C., Oct. 7.—The Hicks Company was chartered here to-day, with $13,000 capital. R. W. Hicks has 127 shares, A. W. Middleton, F. L. Huggins and J. Allen Taylor, one share each. The company will be wholesale jobbers of groceries, notions, produce, fruits, drugs, etc. It will manufacture and distill sugars, syrups, molasses, vinegar, byproducts or residues of same, deal in peanuts, flour, coffee, extracts, etc.

The Governor left to-day for another two week's campaign in the extreme West. He speaks at Marshall, Pritchard's home, to-morrow. He says from observations he has made on the campaign he is convinced every Congressman will be Democratic, and the Republicans will not have more than twelve members of the General Assembly. He is really agreeably surprised at the conditions, as he expected some reaction naturally from the stressful campaign of 1898.

Locke Craig spent to-day here, and went to Statesville to-night to resume his joint canvass with Pritchard to-morrow. The canvass will close at Asheville Saturday.

Real Estate Transfers.

EFFORTS TO END THE COAL STRIKE.

President Roosevelt's Proposition to Mr. Mitchell for Miners to Resume Work.

NOT REGARDED FAVORABLY.

No Answer Received, But It Is Known That Mitchell Will Decline to Ask Miners to Resume Work Under Conditions Stipulated.

By Telegraph to the Morning Star.

WASHINGTON, October 7.—The following statement was made at the White House this afternoon:

On Monday, October 6th, Hon. Carroll D. Wright, commissioner of labor, went to Philadelphia and gave to Mr. John Mitchell the following from the President:

"If Mr. Mitchell will secure the immediate return to work of the miners in the anthracite regions, the President will at once appoint a commission to investigate thoroughly into all the matters at issue between the operators and miners and will do all in his power to obtain a settlement of those questions in accordance with the report of the commission."

Mr. Mitchell has taken this matter under consideration, but the President has not yet been advised of any decision.

The President was in consultation to-day for almost two hours with members of the cabinet relative to the coal strike situation. He also talked over the situation with Dr. Albert Shaw and Dr. Lyman Abbott. About 11:30 o'clock Frank P. Sargent, commissioner general of immigration, and for years chief of the Brotherhood of Locomotive Firemen, arrived at the White House from his trip to Philadelphia where he went as the emissary of the President to convey to President Mitchell of the United Mine Workers Association the proposition of President Roosevelt that the miners resume work. Mr. Sargent had not succeeded in seeing Mr. Mitchell. The President, however, had heard from Commissioner of Labor Wright who saw Mr. Mitchell on the same occason last night in Philadelphia and the latter's reply was that Mr. Mitchell desired time to consider the proposition and lay it before his associates.

After a conference of an hour between the President, Attorney General Knox, Postmaster General Payne, Mr. Sargent and James S. Clarkson, it was decided to give out the above statement.

The Buffalo Conference.

BUFFALO, N. Y., Oct. 7.—The conference between the committee appointed by the National Manufacturers' Association and President Mitchell and his lieutenants, held at the Iroquois Hotel this afternoon, did not result in any definite plan being agreed upon for the partial resumption of work in the anthracite coal fields, but the members of the Manufacturers' committee stated that they were greatly pleased with the progress made. The fact that communication was established with the operators by long distance telephone and an appointment made to meet a committee representing them in Philadelphia tomorrow is looked upon as significant.

Mr. Mitchell this afternoon positively declined to discuss the request made by President Roosevelt that Mitchell use his influence to induce the miners to resume work with a promise of the appointment of a commission to investigate the miners' grievances. It was learned from a reliable source, however, that Mr. Mitchell does not regard the proposition favorably and that he will decline to ask the miners to resume work under the conditions stipulated.

When the conference adjourned the following official statement was given out:

"The committee of the National Association of Manufacturers has listened to the explanation of the present strike difficulty as offered by a special committee of the United Mine Workers at the head of which was Mr. John Mitchell. The National Association of Manufacturers committee has learned what it could of the conditions and now goes to Philadelphia for the purpose of meeting a committee of mine operators with the idea of getting their side of the difficulty. The National Association of Manufacturers carries no proposition from the mine workers and has no other mission than the desire to speedily bring about a settlement of this dispute."

Net Earnings for Nine Months Past Aggregate $101,142,158.

By Telegraph to the Morning Star.

NEW YORK, Oct. 7.—The directors of the United States Steel Corporation to-day issued a statement of net earnings for the nine months of the year ended September 30th. Earnings for July, August and September, with the last month estimated, aggregates $36,764,643; total net earnings for the nine months deducting each month's expenses for ordinary repairs, renewals and maintenance of plant, also interest on bonds and fixed charges of the subsidiary companies, aggregate $101,142,158. The usual dividends of 1¾ per cent. on the preferred, and 1 per cent. on the common, quarterly, were declared.

LATEST SENSATIONS IN CIRCUS WORLD

"Carrying Act" by Paul and Kitty DeVene With Forepaugh & Sells Bros.

Paul and Kitty De Vene are the latest sensation from Paris in the circus world. They ride what is called a "carrying act," and present a most unusual appearance. The young lady looks as if she might have just stepped out of a frame around one of Gibson's girls, generally regarded as the typical high-bred American girl, instead of being a Parisian as she is. Much to the astonishment of every one who sees her she rides in a full-length ball-room gown of white satin. Instead of tripping over its lengthy train and falling from her horse, she executes most difficult and artistic riding feats. The De Venes will be seen with these shows when they exhibit here on Monday Oct. 20th.

Mayor Capedvielle, after a consultation with the public safety committee, which lasted until midnight, decided to call upon the Governor for troops to suppress violence. The adjutant general is now here and the Governor will be reached at his home in North Louisiana in the morning.

NEGRO DELEGATION CALL ON ROOSEVELT.

Reported That He Heartily Disapproved of White Republicans in the South Excluding Them from Politics.

By Telegraph to the Morning Star.

WASHINGTON, Oct. 7.—Bishop Alexander Walters of New Jersey; Bishop G. W. Clinton, of North Carolina, and Rev. L. M. Caruthers, of New York, representing the executive committee of the Afro American council, called upon President Roosevelt to-day to ascertain his attitude toward the movement among certain Republicans of the South to exclude the negroes from participation in the councils of the party. They were especially solicitous of ascertaining whether the President endorsed the action of the Republicans of North Carolina and Alabama with this end in view. They were presented to the President by General James S. Clarkson, surveyor of the port of New York. Postmaster General Payne arrived at the White House while the conference was in progress and was present part of the time.

After the interview the colored men expressed themselves as highly gratified with what the President had said to them. They announced that the President had stated to them that his actions in all matters affecting the race was his answer as to his attitude toward the colored man; that in appointments the character, intelligence and esteem in which the applicant was held in the community in which he lived would be the first consideration, and that no man would be excluded or appointed because of his color. That he heartily disapproved of the efforts of certain Republicans in the South to exclude the negroes from participation in politics was known, so they reported the President as having stated, to those in authority in the movement. Moreover, it also was stated that the President had cited his action in removing District Attorney Vaughn, of Alabama, who was the head of the white Republican movement in that State as evidence of his attitude. It is intimated that this attitude would be still further emphasized in the appointment of his successor. When Bishop Walters and his associates departed they expressed themselves as completely satisfied with the President's attitude and it is understood that they will issue a statement defining their position as well as the President's attitude. When they came to the White House they stated they were prepared, in case of an unfavorable reply, to issue an advisory statement to the colored people of the country in favor of political retaliation upon the Congressional nominees.

FIRE RAGING IN TEXAS OIL FIELD.

The Hogg-Swaine Syndicate Tract Burning—Forty Derricks Destroyed—Twenty People Reported Killed.

By Telegraph to the Morning Star

BEAUMONT, TEXAS, Oct. 7.—Fire which started in the oil field about 10:30 has destroyed a number of derricks, estimated at fifty, and from the city it looks worse than the recent fire. The telephone operator in the field says he does not know yet whether any of the tanks are burning. The fire is located in the Hogg-Swayne tract where the wells and tanks are thickest.

The whole of the Hog-Swaine tract will undoubtedly be burned to the ground. Forty derricks have been destroyed and one hundred more are burning. Twelve lives are known to have been lost.

AUSTIN, Oct. 7.—A long distance telephone message from Beaumont at midnight says that the Hogg-Swaine syndicate tract of oil wells on Spindle Top is on fire, some forty wells being imperilled, and up to this hour twenty people are known to have lost their lives.

BEAUMONT, TEXAS, Oct. 8.—Up to 1 o'clock it is estimated that fifty derricks have been destroyed and over one hundred are still burning. It is said that the tanks of the Hogg-Swayne syndicate are imperilled and the tract seems doomed. Reports as to the estimated loss of life are conflicting. A report from Austin, which was received there by long-distance telephone, placed the loss of life at twenty persons, but the report cannot be confirmed at this hour. From this city the fire looks worse than the recent fire of several weeks ago.

President Williams' Statement Regarding the L. & N. Deal.

By Telegraph to the Morning Star.

BALTIMORE, Oct. 7.—John Skelton Williams, president of the Seaboard Air Line, was in Baltimore to-day in conference with Vice President Middendorf. Subsequently he left for Richmond. He announced that the Seaboard had just ordered the construction of 800 freight cars to accommodate increasing business and 10,000 tons of steel rails, making a total of 30,000 tons ordered since July. In reference to the Louisville and Nashville deal Mr. Williams said there was nothing to add to his previous statement, which was that the Seaboard expected fair treatment, and would respond if discriminated against.

THE NEW ORLEANS STREET CAR STRIKE

Non-Union Employes Mobbed and Beaten and Cars Unable to Run.

A NUMBER OF MEN INJURED.

Police Protection Inadequate—Militia May Be Called Out—No Strikers Hurt--Few Arrests Made--Play for Federal Interference.

By Telegraph to the Morning Star.

NEW ORLEANS, Oct. 7.—The New Orleans Railway Company to-day attempted to obey the order of the Mayor to run passenger cars this morning and almost the entire force of the city police was concentrated at the scene of action, but only one car succeeded in going five squares from the car barn. Four cars were started out with non-union mortormen and conductors, each carrying eleven policemen, while a hundred policemen were massed in the vicinity, but when the first car reached Tonti street, the strikers and their sympathizers made a rush for the car and secured possession. The police made no show of resisting the assault. Not a single striker was hurt. F. H. Schuenck, of Chicago, a non-union conductor, was badly injured, and he with three other non-union employes were bodily taken possession of by the strikers. A policeman was hit on the foot by a brick and another of the non-union men, who is a prisoner, was roughly handled but not badly hurt. The cars were badly damaged by stones.

The company informed the mayor that the police protection was inadequate and this afternoon Mayor Capdevielle issued a call for a thousand volunteer citizen police The responses to the call have been few and it appears that in the failure of police protection the militia will be called out. The company says it will be ready to run cars if protection is given. Three arrests were made by the police during the day.

The four cars which were sent out by the company this morning left the Canal street barn at 7 o'clock in a procession and started up Canal street. The cars were greeted with hoots and yells by the crowd of strikers from the immediate vicinity, but no violence was offered. Two blocks from the barn a large crowd was gathered and they made a dash for the first car. One man swung on to the trolley rope and pulled the trolley down. The car ran a block and a half before it stopped. The stopping of this car, stopped all the others and the strikers boarded them without any show of resistance. Some of the police drew revolvers but no shots were fired except one by a striker. Stones and bricks were showered on the cars and the crews of two of them carried off bodily. The trolley ropes also were cut.

The company then made a play for Federal interference by running out a mail car behind the others and of course it could not get through. Ground was laid for a charge of interfering with the mail. By 10 o'clock all the cars had been returned and the crowds of strikers ha dispersed except a few who were left on watch.

CHOKED TO DEATH.

A Printer of Columbia, S. C., While at Breakfast in Winston.

By Telegraph to the Morning Star.

RALEIGH, N. C., Oct. 7.—A *News and Observer* special from Winston-Salem says:

While at breakfast to-day Mr. E. A. Nelson, fifty-three years of age, a printer, of Columbia, S. C., choked to death on a piece of "rare" beefsteak. It was noticed that he was choking and he was carried into the yard. A physician was summoned, but Nelson died before he reached him. Nelson was a member of a prominent South Carolina family, and his body probably will be sent to Columbia, S. C., for burial.

TENTH ANNIVERSARY.

This month the ATLANTIC NATIONAL BANK celebrates its tenth anniversary. During all these years its record has been one of unbroken success.

To-day its assets, $1,750,000, tower above those of any other bank in North Carolina.

To-day its deposits of $1,375,000 largely exceed those of any North Carolina bank without exception.

It has paid to its stockholders in dividends the enormous amount of $145,000, exceeding its capital by $20,000. In addition to this, there remains a surplus of $155,000. Never before has it been so well prepared to meet and satisfy the needs of its patrons as NOW. The management begs to thank the public most heartily for its generous patronage. oc 1 tf

A NOVELTY.....

In order to determine the comparative values of our daily papers as a medium for advertising, and to have the people see the Finest line of Furniture ever shown in North Carolina, and as fine as they can find in New York City, I will, during the month of October have in my store a box in which any visitor, whether a buyer or not, may place a slip on which they will write name and address and name of paper in which they saw this notice, and on the 1st of November the box will be well shaken and one slip drawn from same. The party whose name is on the slip will receive as a souvenir of this ad the Handsome Gold Musical Chair, which has attracted so much attention. Non-residents may mail their slips, which will be placed in box, but residents of city must visit the store in person.
